## Business management classes in high school

It's harder than ever to get into college these days. AP classes, volunteer hours, solid G.P.A. - these things just aren't always enough anymore. But if business is about being all about networking, then perhaps the pre-college summer business program at one of the best universities makes a great introduction to colleges of their choice. With the competitive nature of today's college admissions process in mind, we went on to hunt the very best pre-college programs for high school students. We scoured hundreds of programs, considering everything from affordability and value experience to instructors, and found them: 50 Best Pre-College Summer Business Programs for High School Students. The Athena Summer Innovation Institute at Barnard College Barnard College, a women's liberal arts school based in New York City, seeks to close the gender gap in business management in part by providing its innovation institute program for aspiring young women. Students participating in the program participate in workshops to strengthen their public speaking skills, learn the basics of corporate governance and even write business proposals. Meanwhile, students take frequent trips to four actual successful companies run by women. Finally, students pitch their business ideas to mentors, faculty and judges in an attempt to win prizes. Where: Barnard College, New York, New York How long: 10 days for specific topics: Business, entrepreneurship How much: \$4,850 (includes tuition, room and board) More information about Berkeley Business Academy for Youth at UC Berkeley's top-ranked Haas ranked School of Business will host this summer's college prep program for high school students considering majors and careers in business and entrepreneurship.
